PROFESSIONAL SUMMARY

Agentic AI Engineer who builds autonomous multi-agent pipelines, MCP tool servers and loop-engineered systems that plan, act, verify and self-correct, using Python and the OpenAI SDK. Focused on deterministic agent behavior through Pydantic schema contracts and closed-loop error recovery. Currently AI Engineer at Morphelabs (Remote). Delivered 50+ AI and automation projects. Daily user of agentic CLI tools such as Claude Code, OpenCode and Antigravity.

TECHNICAL SKILLS

- **Agentic AI & LLM Systems:** OpenAI SDK, Multi-Agent Systems, Loop Engineering, Prompt Engineering, RAG, Tool Calling, Structured Outputs, Schema Evaluation
- **Protocols & Integration:** Model Context Protocol (MCP), REST & GraphQL APIs, SQL/NoSQL Database Integration, Webhooks & Event Handlers
- **Languages & Runtimes:** Python, TypeScript, JavaScript, AsyncIO, Pydantic
- **Web & Full-Stack:** Next.js (App Router), FastAPI, React, Tailwind CSS, Streamlit, HTML, CSS
- **Automation & Infrastructure:** n8n Workflows, Docker, Git & GitHub Actions, Hugging Face Spaces, Vercel
- **Agentic CLI Tools:** Claude Code, OpenCode, Antigravity, Gemini CLI, Codex, Google AI Studio, Kiro, Qwen

EXPERIENCE

AI Engineer — Morphelabs (Remote)
Feb 2026 – Present

- Architect multi-agent workflows in Python and the OpenAI SDK with async runtime graphs for enterprise automation.
- Develop custom MCP server endpoints connecting LLM reasoning engines to databases and external APIs.
- Build loop-engineered tool-calling pipelines with Pydantic schema validation and self-healing on API errors.
- Work on latency optimization and token budgeting for high-throughput LLM agent pipelines.

SELECTED PROJECTS (50+ TOTAL)

- **Excel AI Agent:** Bilingual (English and Roman Urdu) spreadsheet agent with 15+ deterministic tools, session snapshots with one-click undo, and confirmation guards before destructive actions. Python, Streamlit, OpenPyXL, Gemini API.
  Live Demo: excel-agent-ai.streamlit.app | **Code:** github.com/SainBux-HadiSeelro/excel-ai-agent
- **Elite Fitness – Multi-Agent AI Platform:** Four-agent swarm (orchestrator, concierge, workout and nutrition agents) with live tool calling for biometrics, workout protocols, macros and trial-pass booking, plus visible reasoning traces. React, TypeScript.
  Live Demo: elite-fitness-gym-two.vercel.app | **Code:** github.com/SainBux-HadiSeelro/Elite_Fitness_GYM
- **Nexus Mind – Multi-Agent Platform:** Coordinated agents (Arbiter, Oracle Telemetry, Nova concierge) with real-time Shannon entropy telemetry and a dual-engine AI fallback. Python, OpenAI SDK, Streamlit.
  Live Demo: nexus-mind-agentic-platform.streamlit.app | **Code:** github.com/SainBux-HadiSeelro/nexus-mind-agentic-platform
- **SHM Real Estate – AI Lead Qualification:** Conversational AI advisors score buyer/seller intent (budget, location, timeline, financing) and book property viewings into agent calendars through a 9-stage follow-up funnel. Next.js 15, TypeScript.
  Live Demo: shm-real-state-agency.vercel.app | **Code:** github.com/SainBux-HadiSeelro/SHM-real-state-agency
- **Wedding Wishes App:** Built for a real family event: guests submit messages and photos, admin accepts or rejects entries, photos are auto-compressed, approved wishes play as a slideshow. Next.js, Supabase, Cloudinary.
  Live Demo: murtaza-snowy.vercel.app | **Code:** github.com/SainBux-HadiSeelro/Murtaza

EDUCATION & TRAINING

- **BS Software Engineering** — Virtual University of Pakistan (2023 – 2027)
- **Agentic AI Course** — Saylani Mass IT Training (SMIT), Feb 2025 – Dec 2025
- **Governor Initiative for Artificial Intelligence (GIAIC)** — Feb 2024 – Present
- **Presidential Initiative for Artificial Intelligence (PIAIC)** — Nov 2024 – Sep 2026
- **Advanced Python** — Aptech Shahrah-e-Faisal, May 2023 – Aug 2023
- **Intermediate (A1 Grade)** — BISE Larkana, Shahdadkot (2022)
- **Matriculation (A1 Grade)** — BISE Larkana, Shahdadkot (2020)

LANGUAGES

English: Intermediate | Urdu: Native Speaker
